

Our company is built on a foundation of decades of work in the occult sciences and we bring that spirit to your hearth, home and health.

Amy Blackthorn is our founder and she has been committed her craft since 1992.

"Amy walks the walk. She gives you insight, answers, and food for thought. I've never met anyone who knows as much about herbs and plants, and their therapeutic properties, as she does."

— *Melissa D. Newark, DE*

"Amy is not only knowledgeable about her herbs in an encyclopedic manner but is a great person who gives sound advice and counsel in her readings. The woman is a powerhouse in both word and practice and has helped even old skeptical me with some stuff I have been working through. Not only have her herbal blends helped me to become more confident but she does it with a smile on her face. She's definitely a professional and knows what she is doing."

— *Christopher P. Wilmington, DE*

"Amy is an incredible resource, and generous with her expertise. Want to know something about plants? Ask Amy. Want to know something random and/or esoteric? Ask Amy. Also she's a hoot and three quarters, and you can really tell she likes helping people."

— *Eleanor J. York, PA*
